<Use-Case: Add comment>

- Scope: Issue Management Program
- Primary Actor: Admin, PL, Dev, Tester
- Precondition: Actors are authenticated. The issue is already created.
- Postcondition: System displays details of the issue including the whole comments that has been written.

Main Success Scenario

1. Actor fills the blanks.
2. Actor clicks "Add Comment" button.
3. System saves the comment into DB.
4. System displays details of the issue and the whole comments that is written, including newly written comment.

Alternate Scenario: When actors doesn't click "Add Comment" button

1a. System ignore the newly added comment.
